NOTIFICATION.

No. 2007L.—19th August 1930.—The following report of the Select Committee on the Calcutta Municipal (Amendment) Bill, 1930, by Maulvi Shamshuddin Ahmed, with the Bill as amended by the Committee, is hereby published for general information:—

REPORT OF THE SELECT COMMITTEE ON THE CALCUTTA MUNICIPAL (AMENDMENT) BILL, 1930.

We, the members of the Select Committee of the Bengal Legislative Council to which the Calcutta Municipal (Amendment) Bill, 1929, by Maulvi Shamsuddin Ahmed, M.L.C., was referred by a motion carried in the Bengal Legislative Council on the 7th February, 1930, have the honour to submit this our Report with a copy of the Bill as amended by us, annexed. The principal changes made by us in the Bill are indicated by underlining.

1. The Bill was published in English in the *Calcutta Gazette* on the 29th August, 1929.
2. The Committee considered the Bill and papers Nos. 1 to 5 relative to the Bill.
3. The majority of the Committee did not consider that the Bill has been so altered as to require republication.
4. The following are the principal changes made in the Bill :—

Clause 1.—This clause was considered with special reference to clause 20. As it will be necessary for the Committee to take the action contemplated by clause 20 before the rest of the proposed Act comes into operation, it was decided to provide in clause 1 that section 1 and section 20 of the proposed Act shall come into operation directly the measure is placed on the Statute Book, and that the Government shall be given power to bring the rest of the Act into operation subsequently by notification on some convenient date.

Clause 2.—The majority of the Committee were of opinion that as the Cossipur-Chitpur municipality is in a flourishing condition, no good reasons exist for the exclusion of this municipality from the limits of the Corporation of Calcutta. They therefore decided that the proposed Act should be restricted in its operation to the Garden Reach municipality.

The majority of the Committee were of opinion that the Dock and Mill areas should not be excluded from the Garden Reach area for the purposes of the proposed Act.

The changes consequent upon these decisions have been made in the Preamble and throughout the Bill.

Clauses 3, 4, 6, 10, 17 and 18 have been omitted as being unnecessary.

Clause 13.—The necessary consequential changes have been made in the boundaries of Calcutta.

Clause 20.—As to the operation of this clause, see the note in regard to clause 1.

The number of members of the Committee has been reduced from 13 to 9, power being given to the Local Government to appoint the Chairman. Provisions have been made in this clause for casual vacancies, a quorum, and validity of proceedings.

Clause 20(*3*).—The time for the calling of the first meeting has been extended from one week to two weeks.

Clause 20(*5*).—This sub-clause has been revised so as to enable the Committee to determine its own procedure.

Clause 20(*9*) is now embodied in clause 20 (*6a*).

Clause 20(*10*).—The time for submission of the report has been extended from four months to six months, and the Local Government has been authorised to grant further extensions. It has been provided that the orders of the Local Government shall be in accordance with the report of the Committee.

Clause 21 has been deleted as being unnecessary in view of the provisions of sub-clause (*1*) of clause 20.

Clause 27.—A specific reference has been made to the Bengal Municipal Act, 1884.

Clause 28.—This clause has been altered so as to make the intention clearer. The reference to assessments by the Corporation has been omitted.

NOTE OF DISSENT BY THE HON'BLE KUMAR SHIB SHEKHARESWAR RAY.

The Bill has been much improved by the Select Committee, but I am still of the opinion that some clauses need further amendments. The Bill as it stands is not satisfactory and workable in every respect ; inquiries, which should have been made and completed before the Bill was framed, have been left in the hands of the Committee to be appointed under clause 20.

It is not clear whether liability for loans contracted by the Corporation in the interests of the Garden Reach area would rest with the Corporation or be adjustable against the municipality under clause 20 read with clause 23. So important a question would appear to require the decision of the legislature rather than of the Committee.

The clauses dealing with the functions of the Committee and its proceedings may need further changes in order to make the Bill workable.

NOTE OF DISSENT BY MR. H. S. SUHRAWARDY, M.L.C.

I see no reason why Cossipur-Chitpur should be excluded from the operation of the Bill. I am in favour of small self-governing units. It gives larger scope to several individuals to develop their civic faculties. I believe that the feeling for separation is as intense in Cossipur-Chitpur as in Garden Reach. What are known as the added areas have some special claim on the Corporation. The separation of Garden Reach leaves the other members from the added areas in an insignificant minority. If Cossipur-Chitpur is left in, its representation should be increased.

I also differ, though only in a slight degree, with the boundaries settled. The old boundary line of Garden Reach is now in water. The present boundary should be extended up to the new Nimakmahal Road. The representatives of Graden Reach were prepared to give up some land in exchange for the small strip which would thus be added to old Garden Reach, but there is no reason why they should do so. New Nimakmahal Road now forms a natural and convenient boundary, and if it is not intended to stultify the Bill there is no reason why there should not be this slight rectification.

NOTE OF DISSENT BY MR. W. C. WORDSWORTH, M.L.C.

I have signed the report, but I do not feel certain that we have satisfactorily provided for the procedure by which the new municipality will be called into being. From the time when this area ceases to be part of Calcutta to the time when the Committee reports there is likely to be confusion and no one responsible for dealing with it. Some amendment or addition to clause 24 seems to be called for.

NOTE OF DISSENT BY MR. BIJAY PRASAD SINGH RAY, M.L.C.

I regret that I cannot agree with the main principle underlying this Bill, namely, separation of Garden Reach area from the Calcutta Corporation. I am anxious to give relief to the rate-payers of Garden Reach, but I think that this can be done by amending the Calcutta Municipal Act in a way which will enable the Corporation to levy a lower percentage of consolidated rates in individual cases in this area. The separation of Garden Reach from the Calcutta Corporation will be a distinctly retrograde step which I feel I cannot support. But even if it is decided that Garden Reach should be separated on no account the separation of the dock and Mill areas can be supported or justified.

No. 2080L.—26th August 1930.—In pursuance of the provision of rule 20 of the Bengal Legislative Council Rules, 1920, the following Bill, which was introduced in the Bengal Legislative Council on the 15th August 1930, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL MUNICIPAL (AMENDMENT) BILL, 1930.

A

BILL

further to amend the Bengal Municipal Act, 1884.

Preamble.

WHEREAS it is expedient further to amend the Bengal Municipal Act, 1884, in the manner hereinafter appearing: Bengal Act III of 1884.

It is hereby enacted as follows:—

1. (1) This Act may be called the Bengal Municipal (Amendment) Act, 1930.

(2) It shall come into force on such date as the Local Government may, by notification in the *Calcutta Gazette*, direct.

Amendment of section 15 (*iii*).

2. In clause (*iii*) of the proviso to section 15 of the Bengal Municipal Act, 1884, for the word "occupies" the words "lives in" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

This is a very short amendment to remove an anomaly with regard to the interpretation of clause (*iii*) of section 15 of the Bengal Municipal Act, 1884. The object of the Legislators have been frustrated by a ruling of the Hon'ble Mr. Justice Huda in the case of Charu Chandra Mazumdar *vs.* Chairman, Faridpur Municipality (26 C. W. N. p. 412, 22nd December, 1920) in which it was held that a graduate son living in a holding owned by his father was not eligible as a voter although the other requisites of the law were satisfied. The aforesaid ruling was based on rulings about the word "occupying" in section 85 of the said Act, where the question was whether everyone of the persons living in a house and having an income should be assessed to tax or whether the owner thereof (and not his son, wife or servant) was alone to be assessed to tax. The two cases referred to in that ruling, *viz.*, (1) Ambica Charan Mazumdar *vs.* Satish Chandra Sen (2 C. W. N. 689) and (2) Gobinda Chandra Ganguly *vs.* Kailas Chandra Sanyal (15 C. L. J. 689) were both about the interpretation of "occupation" for the purpose of separate assessment within the meaning of section 85 of the said Act, while the present question is about the construction of the word "occupation" for purposes of enabling a graduate, etc., to be recorded as a voter. Here "occupation" in section 15 (*iii*) cannot but mean physical occupation.

This interpretation of the law created much difficulty in some municipalities of Bengal at the time of the preparation of the electoral roll. Some followed the old practice of extending the franchise to resident graduates, licenciates, etc., occupying a holding or part of a holding in respect of which rates have been paid during the year immediately preceding such election—other Municipalities followed the interpretation of the Hon'ble Mr. Justice Huda and disfranchised them. The aforesaid interpretation of the clause in question was anomalous inasmuch as if a graduate had a holding in his name for which he had paid Re. 1-8 as tax, he would be a voter by virtue of the payment of the rate alone, as required in clause (*i*) of section 15 read with rule 2 (1) of the Bengal Municipal Election Rules, and his being a graduate or otherwise would be immaterial and if a graduate could not be a voter without such payment, then the fact of being a graduate, licenciate, etc., contemplated by section 15 (*iii*) would be perfectly useless to a person without such holding and the entire law with regard to the special privilege of education referred thereto would be reduced to a nullity. The expression "occupies" in section 15 (*iii*) must necessarily mean occupation in the physical sense and not in the sense of being a ratepayer of a holding. The wording of the rule "occupies a holding" in respect of which there has been paid is significant. If the Legislature intended that the rate should be paid by the graduate himself, the wording would have been "in respect of which he had paid." The present wording clearly indicates that the expression intended to mean cases of payment of the rates by persons other than the graduate and not by the graduate himself.

As uniform standard of procedure is not being maintained for want of proper construction of the word "occupation," for purposes of enabling a graduate, etc., to be recorded as a voter, it has become expedient to amend the wording "occupies" and it is hoped that the Council will accept the amendment as proposed.

STATEMENT OF OBJECTS AND REASONS.

In dealing with mustard oil it has been found very difficult to check its adulteration as most manufacturers and dealers take shelter under "edible oil" which as defined in clause (*28*) of section 3 has no meaning. In many mills where mixed mustard oil is manufactured a sign board of edible oil is hung up to evade the law. In the absence of any definite specification of edible oil, the Corporation lost many cases in which mustard oil was declared as edible oil. To obviate this difficulty suggested standards of vegetable oils which could come under the category of edible oil were sent to the Local Government for approval, but the Government refused them on the ground that sufficient number of analysis of particular oils had not been done in order to arrive at any definite conclusion. So long as this could not be done, it is absolutely necessary that the definition of edible oil or edible fat should be altered whereby the Corporation would be able to control effectively the adulteration of mustard oil.

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON THE ADMINISTRATION OF THE WARDS', ATTACHED AND TRUST ESTATES IN THE PRESIDENCY OF BENGAL FOR THE YEAR 1335 B.S. (1927-28).

REVENUE DEPARTMENT.

Land Revenue.

CALCUTTA, THE 19TH AUGUST 1930.

RESOLUTION—No. 10048L.R.

Read—

The Report of the Board of Revenue on the administration of the Wards', Attached and Trust Estates in the Presidency of Bengal for the year 1335 B.S. (1927-28).

(1) At the beginning of the year, the number of estates under the management of the Court of Wards was 83. During the year ten new estates including two of the biggest zamindaris in Bengal, viz., Kassimbazar and Mahisadal, were brought under the charge of the Court and five estates were released, thus bringing the total number to 88 at the close of the year.

(2) The total current demand due to the estates on account of rent and cesses was Rs. 62·46 lakhs and the arrear demand to Rs. 94·21 lakhs. The total sum collected was Rs. 64·50 lakhs or about 41·2 per cent. of the total demand or 103·2 per cent. of the current demand.

(3) The total amount of debt outstanding at the close of the year was Rs. 100·05 lakhs. During the year the principal and interest paid or otherwise reduced amounted to Rs. 26·92 lakhs and Rs. 8·21 lakhs, respectively. The debts of estates in respect of which schemes of repayment has been prepared were reduced to Rs. 36·36 lakhs instead of Rs. 35·40 lakhs according to the schemes. The result is an improvement on the previous year, when the corresponding figures were Rs. 36·61 and Rs. 28·17 lakhs.

(4) The percentage of cost of management on current rent and cess demand showed a reduction, being 12·4 against 13·01 in the previous year. Law expenses also fell from Rs. 4·62 lakhs in 1927-28 to Rs. 4·57 lakhs during the year under review.

(5) The Governor in Council observes with satisfaction that as in the previous year, over three lakhs, or a little over 5 per cent. of the current demand, was spent on education, dispensaries and works of improvement.

(6) The thanks of the Governor in Council are due to the Board of Revenue for the administration of the estates under the management of the Court of Wards. He also notices with pleasure the good work done by the Managers mentioned in the report.

The menial staff of the Garden at the end of 1929-30 comprised in addition to temporary men who were engaged as required—

1 Salutri.	2 Bhistis.
1 Jamadar.	1 Cook.
8 Durwans.	1 Head Gardener.

3 Sweepers.	1 Scytheman.
1 Chaprasi.	1 Night-watchman.
1 Carpenter.	

Throughout the year the general health of the animals as a whole was very good; the death-rate being normal. No exhibit of great value was lost, nor did any outbreak of any kind of epidemic occur.

In the open-air aviaries the birds exhibited great activity in nesting and the increase in the number of young which were hatched is a satisfactory indication that a healthy environment has been established.

The outstanding improvement effected during the year is the construction of the Orang-outang Enclosure. As stated in the last year's report the Orang-outangs had to be removed from the Island Enclosure to their former cage on account of their wanton destruction of the trees on the Island. The delicate constitution of these animals is very apt to be impaired by confinement, but the adoption of a suggestion, for which credit must be given to the Honorary Secretary, led to that freedom by which they so greatly benefited being restored to them. The old Crocodile pool to the south-west of the Entrance gate was dismantled and filled in with earth, the ground was raised and levelled

and an island enclosure, modelled after the design of the larger Island Enclosure was constructed, on which these apes can disport themselves without restriction. The exhibit appears to be the most popular of all the Garden contained.

Various other improvements have been carried out. In the Dumraon House, the outdoor cages were partitioned and instead of eight cages there are now sixteen outdoor cages which enable all the animals to enjoy the outer run at all times.

The wire-netting of the Rodent House was found to require renewal. It was dismantled and the whole enclosure has been provided with strong link wire-netting. The brick walls which harboured rats were covered with wire-netting and cement plaster, and it is hoped that the house will be safe from the inroads of these pests.

The Duck Pond Enclosure was renovated throughout and dwarf cement brick walls were constructed on all sides. The iron portion of the structure was strengthened and new wire-netting provided for the whole enclosure which was painted. The pond having silted up was re-excavated and the silt used for raising low-lying grounds elsewhere.

Another improvement effected is the extension of the New Pheasant Enclosure. The house having proved very successful two additional outdoor cages were built at the end. The floor was made rat-proof and rockeries and small streams and pools were constructed. Shrubs, creepers and clumps of tall weeds and grass were planted. This aviary now contains a large and varied collection of birds under conditions upon which it would be difficult to improve.

The annual repairs of the Garden were carried out on restricted lines and only those houses that needed urgent repairs were taken in hand. Road repairs were not undertaken during the year under review and in view of the heavy recurring expenditure in maintaining roads and paths in proper order the question of reducing their area has been under consideration by the Committee.

An experiment of "Bitumuls" treatment with surface grouting has been made on sample lengths of road in front of Dumraon House and round the Jheend House and one inch thick artificial stone paving has been laid down, also experimentally, in front of the Gubbay House in order to discover a suitable material, which will require less frequent attention, to be used after the area to be treated has been reduced.

The Garden was well maintained and there was a good show of flowering annuals in the cold weather. For a number of exhibits sent to the Agri-Horticultural Society's Flower Show held in February 1930 the Garden was awarded several prizes.

The receipts from visitors were less than in the previous year when they were exceptionally high on account of the exhibition of a white elephant and other attractions, such as the Calcutta Exhibition and the Congress. Notwithstanding the reduction in revenue, it has been possible by the exercise of care and economy to maintain the satisfactory financial condition of the Garden and the closing balance shows an increase of Rs. 3,029-11-1 over the previous year's balance.

The following is a comparative statement of visitors and receipts for recent years—

	Number of visitors.	Receipts.	
		Rs.	A.
1926-27 ..	826,211	58,486	4
1927-28 ..	1,107,161	76,701	2
1928-29 ..	1,136,910	78,333	0
1929-30 ..	1,109,901	75,609	3

A large number of children under four years of age and school children, attended by their teachers, were admitted free. On the occasion of the Fancy Fair on 31st December 1929 and 1st January 1930, 14,708 people visited the Garden.

In addition, 50,892 persons visited the Garden on free days. A detailed statement of the number of visitors and receipts appear in Appendix B.

The thanks of the Committee are due to those ladies and gentlemen who have added to the Zoological collection by donations, a list of which is given in Appendix C. Thanks are also due to those who kindly offered to present animals to the Garden, but whose offers could not be accepted, either because the particular species was already sufficiently well represented or owing to want of accommodation.

The Committee also desire to express their thanks to the following Railway and Steamer Companies for kindly conveying the animals belonging to the Gardens free of charge:—

E. I. Railway; B.-N. Railway; B. I. S. N. Co., Ld.; P. & O. S. N. Co., through Messrs. Mackinnon, Mackenzie & Co.; and R. S. N. Co., Ld., through Messrs. Macneill & Co. and Messrs. Hoare Miller & Co. and Lionel Edwards, Ld.

The Corporation of Calcutta sanctioned a grant of Rs. 26,233-6 to the Garden for the year under report, and the amount of the rate bills in respect of the Garden was adjusted against the sanctioned grant as the rate bills fell due. The Committee desire to take this opportunity of expressing their thanks to the Corporation of Calcutta for their generous contribution to the funds of the Garden.

Thanks are also due to the Officer Commanding and Officers of the 3rd Battalion, 12th F. F. Regiment, stationed at Alipur, for permitting their regimental band to play at the Garden on Tuesday afternoons free of charge.

The Committee are much indebted to those members of the public who send old and broken-down horses to the Zoological Gardens, where they are disposed of under the most humane conditions.

P. L. BUCKLAND,
President.

E. H. MARSHALL,
Honorary Secretary.

CALCUTTA, THE 31ST AUGUST 1930.

RESOLUTION—No. 13321P.

The Government of Bengal have learnt with the deepest regret of the death of Mr. F. J. Lowman, Inspector-General of Police, as the result of the murderous attack made on him and Mr. E. Hodson, the Superintendent of Police, at Dacca on Friday, 29th August.

Mr. Lowman joined the Imperial Police in 1903 and was at first posted to Bombay. He volunteered for service in Bengal and was transferred from Bombay in 1908. He soon made his mark in Bengal and did excellent work both in the mufassal and in Calcutta, especially in connection with Intelligence work. When Mr. O'Sullivan went on leave in October 1929, Mr. Lowman was selected to succeed him as Inspector-General of Police. During the short period for which he had held that difficult and responsible post he had displayed great energy and powers of initiative and his tenure of office promised well for the police force of Bengal. That promise has been suddenly cut short, and Bengal mourns the loss of a most efficient officer and a popular and much respected official. To the widow and family of Mr. Lowman and to the Bengal Police the Government of Bengal tender their deep and sincere sympathy.

W. S. HOPKYNS,
Chief Secy. to the Govt. of Bengal.

Instructions to Enumerators.

I.—Rules for filling up the Schedule.

You must use black ink only and write very clearly.

Column 1 (House Number).—Enter the number of the house. If it is empty, write "*empty*" after the number, and leave one line blank. If you find a house without a number, you will report to the supervisor for orders. For census purposes a house means one or more buildings occupied by one family; that is a number of people living and eating in one mess with their resident dependents such as mother, widowed sisters, younger brothers, etc., and such servants as reside with them. Houses, however, which are at a distance from each other and entirely separate, though belonging to the same commensal family, should be treated as separate.

Column 2 (Serial Number).—This column is not to be filled up until after the final enumeration. You will then enter a serial number for all persons enumerated.

Column 3 (Name).—Enter first the chief resident member of the family, whether male or female, then the other members of the family and their resident servants, if any. The name of the chief resident member of the family is essential, but for others the relationship will do, *e.g.*, "*wife of so and so*," "*guest of so and so*," "*son of so and so*," etc. If an infant has not yet been named, enter the word "*infant*." When you have entered all the persons in a house, you will leave one space blank before making the entries for the next house.

Column 4 (Religion).—Enter here the religion which each person professes, as *Hindu*, *Muslim*, *Sikh*, *Jain*, *Christian*, *Buddhist*, *Parsi* and

the sect where necessary. In the case of Christians, the sect must always be entered. In the case of aboriginal tribes who are not Hindus, Musalmans, Christians, etc., the name of the tribe should be entered in this column.

Column 5 (Male or Female).—Enter whether *male* or *female*, even though you have written the word "female" in column 3 already.

Column 6 (Married, etc.).—Enter each person, whether infant, child or adult, as either *married*, *unmarried* or *widowed*. Divorced persons should be entered as widowed.

Column 7 (Age).—Enter the age as it was or will be on the birthday nearest to the date of final enumeration, *i.e.*, to the nearest approximate number of years. For infants less than six months old enter the word "*infant*."

Column 8 (Caste, tribe or race).—Enter in this column the caste of Hindus as, for instance, *Brahman*, *Kayastha*, *Shaha*, *Teli*, etc., and in the case of wide castes, the subcaste also. For Aryas, Brahmos, Jains and Sikhs enter caste if they recognise caste and tribe if they do not. Enter for Muhammadans the racial group (*Saiyad*, *Shekh*, *Mogal*, *Pathan*) or functional group (*Behra*, *Jolaha*, *Kulu*, etc.), which they profess. Enter the tribe of aboriginals as, for instance, *Santhal*, *Oraon*, etc., Enter for Buddhists whether they are *Burmese*, *Maghs*, etc. For Parsis and other Indians (such as some Christians) who have no caste or race enter "Indian." For other than Indians enter race, *i.e.*, whether they are English, Canadian, French, Anglo-Indian, Goanese, etc.

Column 9 (Earner or dependent).—Enter as *earners* persons who actually work or carry on business, whether personally or by means of servants; or who live on rents, pension, etc.; or who have a share in a coparcenary property or trade or financial concerns and are supported or principally supported thereby. Enter all other persons as "*dependents*." Women and children are ordinarily dependents even if they regularly work or assist the members of their family at their work; but if they regularly get money or any kind of direct return for their work and thereby augment the family income, they are earners.

Column 10 (Principal occupation).—Enter the principal means of livelihood of all earners. Enter the exact occupation and avoid vague terms such as "service" or "writing" or "labour." For example, in the case of labour, say whether in the fields or in a coal mine or jute factory or cotton mill or lac factory or on earth-work, etc. Enter as "*landlords*" those who have land but lease it out and live on the rents in cash or kind and do not actually cultivate either themselves or by servants or hired labourers and distinguish between landlords of agricultural land and of houses or town property. Enter as "*agricultural labourers*" those who cultivate land for hire in cash or kind. Enter all other persons cultivating the land either with their own hands or by servants or hired labourers as "*cultivators*" and distinguish between those who have either a tenure or a permanent lease or occupancy right

and those who have no tenure or permanent interest. If a person makes the articles he sells he should be entered as "*maker and seller*" thereof. Women and children who work at any occupation which helps to augment the family income and have been shown as earners in column 9 must be entered in column 10 under that occupation. Column 10 will be blank for persons entered as "*dependents*" in column 9.

Column 11 (Subsidiary occupation).—Enter here any occupation which earners pursue at any time of the year in addition to their principal occupation. Thus, if a person lives principally by his earnings as a boatman but partly also by fishing, the word "*boatman*" will be entered in column 10 and "*fisherman*" in column 11. If an earner has no additional occupation the column will be left blank. If a person shown in column 9 as dependent has an occupation it will be shown in column 11. Dependents who help to support the family by subsidiary work, *e.g.*, a woman who helps in the fields as well as doing house work, will be shown in column 11.

Column 12 (Industry in which employed).—Enter in this column the industry only in the case of those who exercise the occupation recorded in column 10 or 11 for pay in the employ of a company, firm or individual similarly employing and paying other persons. In other cases leave the column blank. Thus in the case of a person shown as "*carpenter*" in column 10 or 11 column 12 will be blank unless he is employed and paid wages by some company, firm or individual employing and paying wages also to other persons; but it will contain the entry "*furniture-making*" or "*motor-repairing*" or "*boat-building*" if he is regularly employed by such a concern. Similarly for managers, clerks, operatives or workmen employed in a factory or by any person employing industry enter the name of the industry, *e.g.*, "*biscuit-making*," "*jute-spinning*," "*jute-weaving*," "*paper-making*," "*coal-mining*," "*tea-growing*," "*rice-milling*," etc.

Column 13 (Birth district).—Enter the district or State in which each person was born; and if the person was not born in Bengal add the name of the province to the district of birth. If the person was born out of India, enter the country as *Nepal, Afghanistan, Ceylon*. The names of villages, tahsils, etc., are not to be given.

Column 14 (Language).—Enter the language which each person ordinarily uses from childhood in his own home. In the case of infants and deaf-mutes the language of the mother should be entered.

Column 15 (Other languages in common or domestic use).—Enter here any other language or languages habitually spoken by each person in daily or domestic life in addition to his mother tongue shown in column 14.

Column 16 (Languages in which literate).—Enter against all persons the name of all current languages which they can both read and write. In the case of persons who cannot read and write any language this column will be blank. Where Hindustani is the spoken language enter "*Urdu*" or "*Hindi*" according to the script in which the language is written.

Column 17 (Literacy in English).—Enter the word "*literate*" against all persons shown as literate who can *both* read and write English. The column will be blank for those who cannot.

Column 18 (Infirmities).—If any person be blind of both eyes (*i.e.*, unable to count the fingers of a hand held up at less than one yard's distance from him), or insane, or suffering from corrosive leprosy, or deaf and dumb, enter the name of the infirmity in this column.

Do not enter those who are blind of one eye only, or who are suffering from white leprosy only.

4. If the entry for any person in any of the columns of the schedule be the same as that for the person entered on the line above, you must repeat the entry. You must not write the word "*ditto*" or make dots.

5. You must have completed all the entries in your block by the 1st February 1931 (18th Magh 1337 B.S.).

6. Between the 1st and 26th February (18th Magh and 14th Falgoon) you must with special care look out for and report to your supervisor any houses newly erected or newly occupied in your block. You will make entries in the schedule for all persons living in such houses and will get such entries examined and tested by your supervisor.

B.—The second round (Final Enumeration).

7. On the evening of the 26th February (14th Falgoon), at the time of lighting lamps, you will take this book as already filled in and again visit every house in your block in order. Before you start on your round you must see that you are yourself enumerated in the house where you are stopping.

8. You must summon the chief member of each family and read over to him one by one the names of the members of his household entered in the schedule, asking him, as you read each name, whether the person is present in the house or not. You must also ask him particularly whether any fresh persons have come or any child has been born. You must strike out the entries for persons who are not present, and fill up the form for any person now in the house who was not there when the first visit was made, such as guests, newly-born infants and others. You are to consider as present all persons living in or taking their meals from the house, even though any of them may be out fishing or watching in the fields or the like.

9. The fresh entries mentioned in the last rule must be made on the blank pages at the end of your book. In each case you will enter the number of the house to which the fresh entries relate, writing under it the word "*continued.*"

10. You must make no alteration whatever in any entry against the name of any person unless you have to strike out the entries altogether, because he or she is no longer present. When you strike out a person, you must draw a line completely through all the entries following that person's name, and not merely through column 3.

11. Whilst going on the final round, you must visit every house marked "empty" in your book, to see whether any person is then living there.

12. You must also go to the *dharmasalas*, *sarais*, encampments and landing places, where travellers rest for the night, and enter all particulars in the schedules for the wayfarers, boatmen, pilgrims and others you may find there, and strike out the entries already made against persons who are not then present. You should ascertain from the village watchmen whether any members of a wandering tribe have come to your block. If so, you must go and enumerate them in the manner prescribed above.

13. If any house-holder in your block has been given a separate schedule, you must collect it on the morning of the 27th February (15th Falgoon), and after seeing that columns have been duly filled in according to the rules, you must stitch it into your book, next to the last schedule filled up by you.

14. You will then on the morning of the 27th February (15th Falgoon) go without any delay to the place appointed by your supervisor, and after your book has been inspected by him, you will enter in the abstract printed on the inside of the cover, the number of occupied houses and persons, male and female, in your block.

15. According to the Census Act, every person is legally bound to furnish you with such information as is necessary for filling up the schedule, but you are forbidden to ask for any information not required for the purposes of the census, *as, for instance, the amount of any person's income* or to disclose to any unauthorised person any information given Any enumerator extorting money on any pretext connected with the census, renders himself liabel to punishment under the Census Act or the Penal Code. Entries in the schedules are confidential and cannot be used hereafter in any legal proceedings in the Civil Courts.

NOTIFICATIONS.

[Sixth publication.]

No. 121.—22nd July 1930.—The following draft of rules and schedule of rates of tolls, which, in exercise of the power conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make for the Roypasa-Bheduria khal, commonly called the Roypasa khal, joining Kalijira river at the north, Karapur Bagadi in the west and Nathullabad khal leading to Barisal at Dephulia and Haripasa in the east, in the district of Bakarganj, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 12th September 1930, and any objections or suggestions received by the undersigned before that date will be considered :—

Draft rules and schedules of rates of tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as below :—

Class I.—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square-built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B. C.) of 1864 and of these rules, be determined by the following measurements :—

CLASS I.

A. The product of one quarter the length of the vessel from stem to stern measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.**—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance of engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rates of toll shall be as follows:—

(1) On all vessels empty or laden, per hundred maunds—Twelve annas.

(2) On all vessels empty or laden, for 12½ maunds or less—One anna six pies.

(3) On rafts of bamboos, grass, timber, etc., not exceeding 50 feet in length and 5 feet in breadth—Six annas each raft.

Tolls will be levied at Dephulia, near Baniakati bridge.

13. For boats frequently using the canal, such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at 10 times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the British Army, post mail runners, officers of the Irrigation Department on duty, officers and servants of the toll office for the canal referred to in these rules while on duty, or the vessels of such other persons as may be exempted by a resolution of the District Board of Bakarganj, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevant points, not provided for in these rules, shall be decided by the District Board of Bakarganj at a meeting, and shall be subject to the approval of the local Government.

STATEMENT OF OBJECTS AND REASONS.

When the Bill for the continuance of certain portions of the Bengal Criminal Law Amendment Act, 1925, was introduced in March, 1930, it was announced that Government had decided not to propose the continuance of that part of the Bengal Criminal Law Amendment Act which grants to the Executive power of arrest and detention without trial, but that if an emergency necessitated their resumption steps would be taken to secure these powers again. The outrage at Chittagong necessitated the resumption of these powers by means of the Bengal Criminal Law Amendment Ordinance, 1930 (Ordinance No. I of 1930), and this Bill is intended to continue that Ordinance and secure these powers for a further period of five years.

Annual Report of the Royal Botanic Gardens and the Gardens in Calcutta and of the Lloyd Botanic Garden, Darjeeling, for 1929-30.

ROYAL BOTANIC GARDENS.

1. **General.**—One can never start to give an account of the year's progress without being conscious of the disadvantages, so far as the public is concerned, of the unfortunate remoteness of these gardens from Calcutta, and of the increasing difficulty of access to them that the commercial development of Howrah as a goods terminus brings in its train.

The year has seen the garden thronged with its thousands of visitors, but a large proportion of these are here for a day as members of picnic and other parties, and there is a comparative absence of the casual visitor for an hour or so, the class of visitor to whom the beauties of a garden are a daily rather than a once a year attraction. It will, perhaps, not be otherwise until improvement trusts reach out in their efforts to make the suburbs more easily approached by present roads, or until new modes of access came as a result of more general development. One would fain look forward to missing Howrah altogether in a journey from Calcutta, and developments of the year, in which these gardens are specially interested as the intended terminus of a tunnel under construction, give some reason for the hope that new approaches in the form of river subways may yet solve the problem of access between East and West banks.

Until it is solved the efforts of those responsible for the attractiveness of the place must be expended for that restricted public intent on reaching the beauties of the gardens through all the unpleasantness of their approach.

Climatic conditions have not hindered the garden staff in their efforts. The rains were somewhat prolonged, and as a result there was late sowing with late flowering of cold weather annuals. But the plans for garden maintenance and development have been diligently followed, and there is a goodly number of new and interesting species added, with all previous efforts at the show of annuals completely eclipsed. The temporary staging of annuals in pots throughout the garden has been greatly developed since reference to its advantages were made in last year's report. This is perhaps the outstanding feature of the year. It has involved additional expenditure and labour, but the results achieved, especially in the direction of giving colour to foregrounds and relieving the drab appearance of shades of green, have established as a permanency this method of garden improvement.

In addition to this the area of the permanent flower garden has been increased by beds of roses and other flowering perennials and by new plots for annuals, especially in the neighbourhood of the smaller palm house. Elsewhere throughout the garden the addition of beds of Cannas on islands and at the end of vistas has greatly helped the general scheme by giving some colour and life to the whole.

Noteworthy amongst the 220 additions to permanent situations, of which some 58 are species new to the garden may be mentioned, *Cupressus sempervirens*, *Cupressus macrocarpa*, *Betula utilis* and *Corylus ferox* from the Lloyd Botanic Garden, *Arenga Engleri*, *Ormosia dasycarpa*, *Samadera indica*, *Pentadesma butyracea*, *Stifftia chrysantha*, *Schizolobium excelsum* and *Eugenia pungens* from Ceylon, *Mallotus nepalensis*, *Rhodosphaera rhodanthema* and *Aberia macrocalyx* from Dehra Dun, *Dombeya acutangula* and other species through the services of the Agri-horticultural Society and two species of economic importance, *Elettaria Cardamomum* and *Eugenia caryophyllata* from Buitenzorg.

Several plants now introduced to permanent situations have been tried repeatedly before without much success, but a fresh chance through new situations and altered methods of treatment is always being offered to old failures in the hope that one or two successes may justify retrials. The Curator's sanguine efforts in this direction have been amply justified so far as new annuals go, and those visitors who were privileged to see through the nurseries not open to the general

public met not a few old European cold loving favourites seldom seen in India. This was especially the case with bulbuous plants and, if any exhibit stood out as a surprise in the heat of Bengal, this was exemplified in pots of well grown Narcissus.

There was the normal show of Orchids at the beginning and end of the year, in which species of Dendrobium, Vanda, Catasetum, Laelia and Cattleya, as usual, were prominent. For the public these plants seem always to hold a particular interest. The beauty of their forms and the variety and profusion of flower they display, perhaps, makes this interest natural, and it is fortunate that the most profuse of flower and amongst the most attractive should also be the most easy to handle horticulturally. No group in these gardens surpasses in beauty the Dendrobiums, the most hardy and easily handled of all. But a real Orchid display requires the hand of the specialist. Many species succeed only with difficulty in the plains of Bengal and the importation of fresh stock is a yearly necessity.

Garden officers and the clerical establishment are enjoying for the first time the benefits of the electric scheme now completed for fans and lights, and gratitude to Government for this provision is all the deeper from long experience of being without these modern conveniences. The improvement benefits local officers and staff and was long overdue, but other schemes of Garden improvement are even more urgent from the public point of view. Among the most longed for is a supply of drinking water to the visiting public. The absence of such a supply, which in these times of tube-wells could be had for a sum small in comparison with what would be required to take down Corporation water, is undoubtedly a serious drawback. It militates against garden popularity and keeps away many parties who would otherwise enjoy coming here. No scheme of Garden improvement and it is suggested not many schemes in any department of Government would gain the public support and draw the gratitude that the provision of drinking water here would elicit. Until such reasonable public demand is met, it must be the duty of officers responsible for garden amenities to keep the scheme prominently to the front with a view to its gaining its proper place in the order of schemes sanctioned but awaiting funds.

2. **Plant and seed exchange.**—Records show some 1,260 plants as having been received and 20,947 distributed. In the main, receipts and distributions are Indian, but numbers have been received from and have also gone abroad. As usual, Government institutions, District Boards, Municipalities and Railways are the chief recipients.

Some 305 packets and 37 lbs. of seed were received from foreign correspondents and 481 packets and 97 lbs. were distributed. The garden does not regularly publish seed lists for exchange purposes, but its services are always at the disposal of local and foreign correspondents and for purposes of obtaining seed and botanical material these services, already sufficiently advertised by historical connections, are freely utilised by a worldwide range of institutions.

3. **Herbarium and Library.**—The usual numbers of specimens were received, identified and incorporated. Prominent amongst receipts were collections from Forest Officers in Burma and a set of representative plants of the Eastern Himalayas for determination and preparation for the Herbarium of the University of Vienna.

Several thousands of specimens have been acquired for the Herbarium during the year, and the attempt to settle down to regular annual field survey work has been continued.

Mr. Biswas, the Curator, was on tour in the Bombay Presidency early in the year and towards the close started work for a survey of the South Burma Cinchona Reserve area. Collections have accrued from this area for several years, but it is proposed to systematise the collection and survey by having an officer on the spot for periods representing all seasons of the year. This is Mr. Biswas' first tour but it will be followed as circumstances permit by regular periods of deputation so that material representing all seasons, areas and altitudes may be built up. Mr. Srinivasan, Senior Assistant in the Survey, has continued work in the Garo hills area, adding to his materials already rich and to his field observations with a view, ultimately, to an Ecological account of the vegetation of this part of the Indian Empire.

Prominent amongst accessions from outside were gifts of well-preserved specimens from the Swedish State Museum, Stockholm, and from the National Museum, Washington, and a set of named grasses from Professor Hitchcock of the Smithsonian Institute, Washington.

The chief distribution, so far as number of plants goes, was a set of 927 Eastern Himalaya, Chittagong and Madras duplicates to the Department of Tropical Forest Botany, University of Oxford.

Many specimens are on loan. The Juncaceæ have been to Stockholm, the Gnetaceæ to Berlin and the Southern India Cyperaceæ to Kew in connection with the Flora of Madras. These will be followed at an early date by the Gramineæ. To Kew, also, by way of loan in the first instance, but possibly for permanent incorporation with the African collections there, has gone a set of South African plants collected by Dr. Roxburgh early last century. The collection is of historical interest and is more appropriately housed at Kew with other African collections than at Sibpur.

General Herbarium routine work has been actively continued. Some 1,300 odd old covers have been replaced, 3,245 specimens have been incorporated, unknown but large numbers of sheets have been repaired and remounted, poisoning of the collections goes on regularly and the general appearance of the cabinets themselves has gained much by their being repolished and varnished.

Apart from adding periodicals, the supply of which received under standing orders cannot safely be interfered with, little could be done to enrich the Library collections. Of the grants voted for books and plates much has to be reserved for the costly illustrations that accompany issues of the Annals of the Garden, and it would be to the Library's advantage if the financial requirements for plates could be separated from Library grants proper.

4. **Publications.**—Of Garden publications, Volume 13 of the Annals, being Professor Martelli's Asiatic Palm, Coryphæ, has reached its final stage in the printer's hands. Some delay in the progress of this work has been caused of late by the author's illness. The plates work of Volume 14—Sir David Prain and Mr. Burkill's monograph of the Asiatic Dioscoreas—is under way. Mr. Biswas, Curator of the Herbarium, has published various papers on Algæ and has investigated and reported on the Algal flora of the Calcutta Water Works. Mr. Badhwar has been invited to collaborate with Professor Dixon in descriptions of new or noteworthy Himalayan Mosses and has in an advanced state a paper descriptive of his already extensive work on this group of plants in the North-West of India. Proof of Professor Brühl's Census of Indian Mosses, to be published in the Records, has been received from the Press and is under correction.

5. **Finance.**—Out of a total budget allotment of Rs. 51,901 for staff and permanent establishment, Rs. 48,837-13 were spent. Rupees 3,000 were surrendered, mainly under Garden staff, due to change of incumbents and to a post of Overseer being kept vacant and there was a small final saving of Rs. 63-3. Under all other heads there was a net saving of Rs. 519-5-5 out of a net grant of Rs. 72,155 after a surrender of Rs. 1,092 under "Allowances, honoraria—non-voted." The total net saving was Rs. 582-8, accounted for mainly by difficulty in exactly estimating expenditure for Europe stores.

Rupees 2,308-12-6 were realised and credited to Government from the sale of miscellaneous garden produce. This sum is much in excess of the average and estimated receipts. The rise is due to the sale of some valuable wind-blown Mahogany.

6. **Staff.**—The writer held charge as Superintendent, Mr. Biswas was Curator of the Herbarium, Mr. N. Mitra, Curator of the Garden, Mr. M. Jones was Assistant Curator till 25th January 1930 when he was transferred to the Calcutta Gardens to relieve Mr. Basu transferred to Darjeeling. Mr. Joneja was Overseer at Sibpur throughout the year. Mr. Quasam Ali was Overseer in the Calcutta Gardens till Mr. Jones' transfer when he came to Sibpur to officiate as Assistant Curator. Babu Ashutosh Banerjee was Head Clerk throughout the year. With minor exceptions, all subordinate officers and the clerical establishment have been loyal in the performance of their duties.

CALCUTTA GARDENS.

Work in these gardens was again mainly of a routine character. After losing its crowds of visitors, who seem to have transferred their attention of an evening to the vicinity of the Victoria Memorial, the Eden Gardens would seem to be regaining part of their past popularity. This is no doubt due to the thoughtfulness of His Excellency in allowing his band to resume the musical programmes formerly held here. These are much appreciated and help to bring back to the gardens the appearance of life and liveliness they once possessed. This added attraction has been accompanied by efforts to render the garden itself in the vicinity of the bandstand more of a beauty spot for the visiting public. As at Sibpur the staging out of potted annuals has been resorted to, and the structure of the bandstand itself has lent itself to the scheme. Considerable improvement has been made in the condition of some of the roads, the maintenance of which now becomes an annual as against a former quadrennial charge.

Not many people know of the existence of the Orchid, fern and palm displays at the north-west corner of the garden but there is a growing collection of valuable plants in the kutcha structures that serve as houses for these groups, and one scheme of Garden improvement could usefully and popularly take the form of a large airy cool house similar to those used for shade-loving plants in the Royal Botanic Gardens at Sibpur. With the deferment of arrangements to deepen the tanks in the gardens repeated cleaning of [illegible] was carried out. This has become an unsatisfactory and unhygienic [illegible] tanks are to remain at all in keeping with garden surroundings.

In the Dalhousie Square Gardens no outstanding work calls for report, but those—and they are many—who pass on their way to business daily must have noticed and enjoyed, if they had any love for nature's beauty left, the unusually fine display of cold weather annuals in the Curzon Gardens. Actually these gardens have a position that much more should be made of. Were provision ample the area could be one mass of flower and colour all the year round. The position it occupies and its shape, a comparatively narrow strip between two main highways, are just what are required to make the best of a floral display. For a garden it would be hard to better its natural advantages, but flowers take labour and attention, and failing the liberal provision that would be required to open and maintain the beds the next best scheme would provide more ample shade throughout the area. The casual observer will note how bare of shade are these gardens. It is a little difficult to understand why this should be so, except that they are not old, and that, possibly, the idea of one immense flower garden was in the mind of their designer.

Up till 25th January 1930, Mr. Basu was Assistant Curator. On this date he proceeded to Darjeeling to prepare for his duties of acting Curator there. He was replaced by Mr. Jones who officiated till the end of the year. Out of a total allotment for the Calcutta Gardens of Rs. 24,232, there was a small saving of Rs. 268-1 mostly effected in cost of foreign stores and other charges pertaining thereto. Fishing passes for Dalhousie Square tank brought in a revenue of Rs. 72.

LLOYD BOTANIC GARDEN, DARJEELING.

At this station the season was favourable for gardening. Rains were well distributed, there was no snow and temperatures were normal.

A part of the roof of the western propagating house was renewed and also the centre and one side staging. A new cold frame was built of improved design to replace an old frame which had fallen to pieces. The roofs of godowns and carpenters' shed, garden shelters and lavatories were repaired and repainted. A length of 350 feet of road was relaid and other roads were given surface repairs.

Good results were again obtained from seeds of annuals received from Carter and Company, and Watkins and Simpson. Japanese bulbs were not so successful as the bulbs from Holland, due principally to the longer journey from Japan through a tropical climate which started the bulbs into growth before their arrival in Darjeeling.

Three hundred and ninety-three young trees and shrubs were planted out in the garden to replace deaths and as new species.

It may be of interest from the economic point of view to note, that, of the seeds imported in 1927 Nos. 17, 18 and 19, being seeds of raspberries and loganberries received from Tasmania have developed strong plants, which have borne fruits freely, of better flavour and size than the ordinary local raspberry. A few of these plants have been distributed to North Sikkim where conditions for temperate fruits are very much better than in the Darjeeling district.

The Curator toured in the Tista Valley for 8 days in December and the plant and seed collectors went on a tour which occupied six weeks to the Jongri plains and the Gyachela for collecting seeds of alpines. At other times of the year seed and plant collecting was done in the neighbourhood of Darjeeling, the Rungeet and Tista Valleys.

The following seeds and plants were distributed to botanical and other institutions during the year, seeds 4,142 packets, plants 1,712, seedlings 2,646 and bulbs and tubers 361, and the following number of seeds and plants were received, seeds 270 packets and plants 52.

Mr. Leslie who was in charge except for the last few days of the year when he proceeded on leave, has made praiseworthy efforts to maintain the reputation of the garden as a centre for the distribution of Eastern Himalaya plants and seeds.

Out of a sanctioned allotment of Rs. 25,366 for all heads Rs. 21,675-8-2 were spent. There was a compulsory saving of Rs. 3,360 under cost of passages, due to the late submission of bills by Steamship Co.

NOTIFICATION.

Simla, the 7th August 1930.

No. D.-2390-R. II.—The Indian Civil Service Family Pension Rules and the Indian Civil Service (non-European members) Family Pension Rules, with amendments up to date, are published below for general information. A reprint of these Rules in pamphlet form will be issued shortly.

I.

The Indian Civil Service Family Pension Rules.

1.—(1) These Rules may be called the Indian Civil Service Family Pension Rules.

(2) They apply to all covenanted members of the Indian Civil Service who are of European race, or who being of non-European race,

(*a*) were appointed to the Service between the 1st August 1914 and the 4th January 1923, or

(*b*) were appointed in the years 1912 and 1913 and have been admitted as subscribers.

(3) If any question arises as to whether these Rules apply or do not apply to any individual member of the Indian Civil Service, the question shall be decided by the Secretary of State in Council and his decision shall be final.

2. Every person to whom these Rules apply (hereinafter referred to as a "subscriber") shall make, with effect from the date of his arrival in India to join his first appointment, the contributions and payments* hereinafter prescribed.

3. The sums so contributed or paid shall be credited by the Secretary of State in Council to the revenues of India, and the pensions or other benefits payable under these Rules shall be debited as a charge upon those revenues.

4. The pensions and other benefits payable under these Rules shall be divided into two portions, the one met from the contributions of subscribers and the other met from public funds.

---

*These contributions and payments are fixed in sterling, and when recovered or paid in India are convertible into rupees at the current rate of exchange.

5. A *pro formâ* account shall be maintained by the Secretary of State in Council of all contributions and payments received and of all disbursements made therefrom, together with an account of interest accruing on the balance calculated at such rates† as may from time to time be fixed by the Secretary of State in Council with reference to the market rates of the day.

6.—(1) The Secretary of State in Council shall from time to time, at such periods as he may determine, place the *pro formâ* accounts referred to in Rule 5, together with statistics of the ages, births, marriages and deaths of the subscribers and of their dependants, before such Actuary or Actuaries as he may select, with instructions to examine them and report thereon.

(2) The Report of the Actuary or Actuaries shall be published in such manner as the Secretary of State in Council may direct.

(3) The Secretary of State in Council shall, after consideration of the Actuary's Report, make by amendment of these Rules such alterations in the rates of contributions, payments, and benefits as he may think necessary. Every such alteration shall, in the absence of provision in the Rules to the contrary, take effect from the first day of the month following the date of publication of the amendment in the *Gazette of India*:

Provided that no reduction shall be made in respect of the benefits payable to any person already in receipt thereof, other than the withdrawal or reduction of any increase granted temporarily.

(4) The cost of the actuarial examination and Report aforesaid, together with all other expenses incurred in connection with the administration of the Rules, shall be borne by the Secretary of State in Council.

7. With effect from the 1st January 1930, the monthly contributions payable by a subscriber shall be those shown in the First Schedule to these Rules, and shall be deducted from his pay at the time of issue. If at any time a subscriber is not in receipt of pay he shall not thereby be relieved of the obligation to pay the contributions due from him.‡

8. Subject to the provisions of Rule 23 and Rule 25, contributions payable under Rule 7 shall cease when the subscriber retires from the Service on a pension.

9. A subscriber who is dismissed from the Service or who resigns without being entitled to an annuity or pension shall thereupon cease to be a subscriber and his family shall cease to be entitled to any pensions under these Rules, nor shall the subscriber be entitled to any refund of contributions or other payments:

Provided that the Secretary of State in Council may at his discretion permit any subscriber who has resigned without being entitled to an annuity or pension to continue his contributions and thereby to retain for his family the benefits of these Rules, and if such permission is granted contributions shall be payable until the subscriber's 54th birthday.

10. Subject to the provisions of Rule 8, the contribution payable on behalf of a child is payable in the case of a son until his attainment of the age of 24 years or previous death, and in the case of a daughter until her marriage or previous death.

11.—(1) Subject to the provisions of Rules 12A, 13 and 23A, every subscriber in the Service shall report his marriage in the form prescribed in the Second Schedule, within one month of the date thereof, or within one month of his arrival in India if he was then married, and shall on marriage, or remarriage, or on entering the Service married pay, in addition to the monthly contributions prescribed by Rule 7, the donation specified in the Third Schedule to these Rules against the year of his

†The rate of interest fixed for the present is 5 per cent. per annum.

‡If a subscriber is not in receipt of pay from a Government in India, he should arrange to pay the contributions due from him, either by cash or by cheque, to the Accountant-General, India Office, or to the Accountant-General, Central Revenues, New Delhi.

age, and if the age of the subscriber exceeds that of his wife by five years or more he shall further pay the disparity fine specified in the Fourth Schedule.*

(2) Donations and disparity fines payable under this Rule may be paid either in one sum or in 12 equal monthly instalments, and if paid in instalments interest shall be levied on the unpaid portion at the rates fixed by the Secretary of State in Council under the provisions of Rule 5, but any instalment may, if the subscriber so desires, be paid in advance of the due date.

(3) Donations and disparity fines payable on marriage shall be increased by 2½ per cent. if the fact of marriage is not reported within one month from the date thereof, and by 5 per cent. if the delay exceeds six months. If the marriage is not reported within one year the subscriber may be required to produce medical evidence as to the state of his health in the form prescribed in the Fifth Schedule, and the Secretary of State in Council shall in each case decide whether, and, if so, on what terms liability for widow's pension shall be accepted.†

12.—(1) Subject to the provisions of Rule 13, every subscriber in the Service‡ shall report in the form prescribed in the Sixth Schedule, within one month of its occurrence, the birth of every child born alive in wedlock, or, if he was married and had children living at the date of his arrival in India, he shall report their names and dates of birth within one month of that date§.

(2) No payment shall be required in respect of any child who dies within 30 days of birth.

(3) If the birth of a child is not reported within one month, the subscriber shall pay a fine of 12*s.* and a further fine of 2*s.* for each succeeding month's delay. If the delay exceeds 12 months the subscriber may be required to produce medical evidence as to the state of his health in the form prescribed in the Fifth Schedule, and the Secretary of State in Council shall in each case decide whether, and, if so, on what terms, liability for orphan's pension shall be accepted.**

12A. Contributions payable under Rule 7 shall, in the case of a subscriber in active service appointed before 1st April 1910, cease on completion of 25 years' service, or on the 1st January 1930, whichever is the later: Provided that—

(*a*) Where the subscriber shall have married before such date, he shall continue to subscribe until he shall have paid the amount, if any, by which the sum of the difference between the married and single rates of subscription from the date of his marriage, or of his last marriage if more than one, up to the said date, and of any subscriptions payable to the said date in respect of children of that marriage, falls short of £200, or until he retires; and that

---

*The reports required by these Rules should be made:—

(1) To the Accountant-General, Central Revenues, New Delhi, when the subscriber is drawing pay in India or in a Colony to which he has gone direct from India, or

(2) To the Controller of Pension Funds, India Office, Whitehall, London, S. W. 1, when the subscriber is drawing his pay in England or in a Colony to which he has gone direct from England.

†These clauses 11 (*3*) and 12 (*3*) are not to be read as implying an option of omitting or postponing any report that a subscriber is required to make under Rules 11 and 12. Intentional neglect to report is a breach of discipline.

‡Retired officers, not being liable for subscription in respect of children born of marriages contracted before retirement, are not subject to the provisions of Rule 12, but they should, in the interests of their children, report every birth without delay, as failure to do so will entail loss of benefit under the provision of Rule 16.

§See note "*" above.

**These clauses 11 (*3*) and 12 (*3*) are not to be read as implying an option of omitting or postponing any report that a subscriber is required to make under Rules 11 and 12. Intentional neglect to report is a breach of discipline.

(*b*) If such a subscriber shall marry after completion of 25 years' service, but before retirement he shall pay on marriage, in addition to the contributions specified in Rule 11, the amount of the subscriptions of which he has been relieved since completing 25 years' service; or the sum of £200, whichever is the less; and if the said amount be less than £200 he shall continue subscription until he shall have paid the difference between the said amount and £200, or until he retires.

13. Reports shall not be accepted nor contributions or payments received in respect of any wife married during the lifetime of another wife, or of any child born of a wife married as aforesaid; and no wife married as aforesaid or child born of such a marriage shall be entitled to any benefit under these Rules.†

14. Interest from the due date shall be charged on monthly contributions or donations or any portion thereof remaining unpaid for more than one month from such date at the rates fixed by the Secretary of State in Council under the provisions of Rule 5.

15. Any contribution or payment due at a subscriber's death shall be deducted, without any addition for interest beyond the date of death, in four quarterly instalments from the pensions due to his dependants:

Provided that if the sum due as aforesaid is more than half the annual amount of the pensions it shall be deducted in such a number of quarterly instalments as the Secretary of State in Council may direct.

16. The widow or child of a deceased subscriber whose marriage or birth was not reported by the subscriber during his lifetime in accordance with these Rules shall be entitled to no benefit under these Rules; but the Secretary of State in Council may, on good cause being shown for the omission to report a marriage or birth, admit such a widow or child to a pension on terms to be fixed by him.

17.—(1) A posthumous child of a subscriber by a marriage contracted before retirement and duly reported in accordance with Rule 11 shall be entitled to pension without payment.

(2) [*Omitted.*]

(3) No child shall be entitled to benefit under this Rule whose birth is not reported* within 12 months of its occurrence.

18. Subject to the provisions of Rule 21, the pension of a widow under these Rules shall continue in full during widowhood. On remarriage she shall retain half her pension during coverture, but if she again become a widow she shall be entitled to revert to full pension, and, should her last husband have been a subscriber, to draw in addition pension as his widow. Reduction to the half rate shall take effect from the commencement of the quarter following that in which the remarriage occurred; the full pension shall be restored from the day following that on which the pensioner again becomes a widow.

19.—(1) Subject to the provisions of Rule 21, the pension of a male orphan shall be payable until he attains the age of 24, unless he was admitted to pension with effect from a date prior to the 1st April 1914, in which case it is payable until he attains the age of 21 only:

Provided that in any case where it is shown that a male orphan, on attaining the age of 24 years, or 21 years, as the case may be, is by reason of mental or physical disability, incapable of earning a livelihood, the Secretary of State in Council may at his discretion permit such male orphan to continue to draw beyond that age a pension of an amount not exceeding that of which he is then in receipt:

Provided further that if a male orphan shall be over the age of 24 years on the date of his father's death, and if it shall be shown that by reason of mental or physical infirmity he was not at the age of 24 years and has not at any subsequent period been capable of earning a livelihood the Secretary of State in Council may at his discretion grant to him a pension of amount not exceeding that laid down in the Eighth Schedule to these Rules for children who are over 12 years of age.

---

†This Rule is designed to apply to subscribers who may lawfully have more than one wife living at the same time.

*Reports should be made as in the case of those required by Rules 11 and 12, which see.

(2) Subject as aforesaid the pension of a female orphan is payable until the end of the quarter in which she marries, and shall not revive upon widowhood. On marriage a female orphan shall be granted from public funds a donation of £250.

(3) The Secretary of State in Council, or, in the case of a pension drawn in India, the Governor-General in Council, may at his discretion permit a portion of the pension of a male orphan who has reached the age of 16 years to be commuted with a view to the proceeds being applied to the pensioner's advancement in life.

(4) The pension of a minor orphan shall be paid to his or her mother or other duly appointed or recognised guardian.

20. Declarations shall be furnished quarterly by pensioners as to their continued widowhood, spinsterhood or survival as the case may be.†

21. Pensions under these Rules shall be tenable during good behaviour, and if the Secretary of State in Council, or, in the case of a pension drawn in India, the Governor-General in Council, is satisfied that the pensioner is leading an immoral life or has been guilty of gross misconduct, he may withhold further payment in whole or in part, and an order to this effect by the Secretary of State in Council or by the Governor-General in Council, as the case may be, shall be final and conclusive.

22. A pension payable under these Rules shall enure for the benefit of the pensioner only, and no transfer, assignment or other alienation thereof shall be recognised.

23.—(1) A subscriber who marries after he has retired from the service on a pension may, if he so chooses, secure pension for his widow and for his children born of such marriage, on the conditions that reports* of occurrences are made within one month in the form prescribed in the Second or Sixth Schedule, as may be appropriate, and that a certificate of health in the form prescribed in the Fifth Schedule is furnished with the report of the marriage.

(2) Notwithstanding the provisions of Rule 8 there shall be payable on any marriage reported as aforesaid, and subject to the provisions of Rules 11, 14, and 23A, so far as they may be applicable, the donation prescribed in the Third Schedule, the disparity fine specified in the Fourth Schedule, and a further sum of £200.

(3) A subscriber who has married after retirement but before 1st January 1930, and who has paid donations under the scale then in force to secure pensions for his wife and child or children, shall be entitled to a refund of the amount by which the total of such donations exceeds the sum payable under the Rule as since amended, but without interest; and any such subscriber who has paid a donation for his wife only may at his option secure benefit for his children by the marriage on payment of the difference, without interest between the donation paid and that payable under the Rule as since amended.

23A.—(1) On the termination of the marriage of a subscriber by divorce or annulment he shall be liable thereafter until remarriage for subscription at the unmarried rate together with subscriptions for children, if any.

(2) Where the marriage has been terminated by divorce on the petition of the wife she shall be entitled after the death of her divorced husband to pension of half the amount met from the contributions of subscribers as shown in the Eighth Schedule according to the class of her husband on the date of termination of the marriage: Provided that—

(*a*) on remarriage she shall forfeit absolutely all claim to benefit under this Rule; and

---

†Forms for the purpose of the declarations required by this Rule are supplied by the High Commissioner for India, India House, Aldwych, London, W. C. 2, or, in the case of pensioners receiving payment in India, by the Accountant-General, Central Revenues, New Delhi.

*Reports should be made as in the case of those required by Rules 11 and 12, which see.

(*b*) where the divorced husband has retired on proportionate pension the Secretary of State in Council shall in each case declare the amount of the pension for which the divorced wife is eligible; but the amount so declared shall not be less than half the amount of the pension met from the contributions of subscribers to which she would have been entitled at the date of her divorce had her husband then died.

(3) Where the marriage has been terminated by divorce on the petition of the husband he shall be exempted on remarriage from payment of the donation specified in the Third Schedule to these Rules, but this exemption shall apply on the first subsequent remarriage only.

(4) In cases of annulment the subscriber shall be entitled to receive a lump sum the amount of which shall be fixed in each case by the Secretary of State in Council.

(5) This Rule shall not apply in the case of marriages dissolved or annulled before 16th February 1926.

24. Every subscriber shall report* within one month of its occurrence the death of any dependant eligible for benefit under these Rules.

25. These Rules shall apply to a subscriber who retires under the Premature Retirement Rules, subject to the modifications laid down in Rule 12 of those Rules.†

26. With effect from 1st January 1925, the pensions‡ payable under these Rules shall be of the amounts specified in the Eighth Schedule, and shall be payable quarterly in advance on or after 1st January, 1st April, 1st July, and 1st October.

27.—(1) Pensions under these Rules shall be payable in London in sterling.§ Pensioners residing in India may, however, at their option, receive payment‖ in that country in rupees at the current rate of exchange. Provided that—

(*a*) Pensioners who were receiving pension in India prior to the 1st February 1921 at 1*s.* 4 *d.* the rupee shall, so long as they are in India and continue to have their permanent residence there, continue to receive it at a rate not less favourable than 1*s.* 4 *d.* the rupee;

(*b*) pensioners who were admitted to pension before the 1st February 1921, or who are dependants of subscribers in the Service on that date, and who commenced or shall commence to receive payment in India after that date, shall, so long as they are in India and have their permanent residence there, receive payment at a rate not less favourable than 1*s.* 8*d.* the rupee.

(2) A pensioner residing in India who has elected to receive pension in India shall not subsequently be permitted to change the place of payment except at the commencement of an official year.

Under this alternative, subscriptions will be payable under the ordinary regulations for each child, whether born before or after retirement. Provided that, in the event of the officer failing to notify within three months of the date of his retirement the method selected by him, he shall be deemed to have elected the first of the above methods.

If he proves successful as a candidate for more than one service he will ordinarily be assigned to that service for which he expressed a preference at the time of his application provided that the vacancies have not already been filled but the Government of India reserve power to assign him to any service for which he is a candidate if in their opinion the exigencies of the public service render this desirable.

The number of candidates to be selected at this examination for each of the three services will be announced hereafter.

The application must be made through the Collector or Deputy Commissioner* to the proper authority of the area in which the candidate's parents reside at the time of the application, or of an area in which they have previously resided for a period of not less than three years, or in which the candidate has himself resided, otherwise than as a student at a college or University, only, for a like period.

The proper authority is, for a Governor's Province, the Chief Secretary†; for Coorg, the North West Frontier Province, Delhi, Ajmer-Merwara, Baluchistan or Andamans and Nicobar Islands the Chief Commissioner; and for a State in India the Political Officer or Agent, who should be addressed through the Durbar.

No candidate will be admitted to the examination from whom the Collector or Deputy Commissioner* or the Political Officer or Agent has not received on or before the 15th October 1930, an application on the prescribed form accompanied by the necessary documents. Copies of the application form and of the Rules and Regulations may be obtained from the local Government and Political Officers or Agents.

No allegation that an application form or letter respecting such form has been lost or delayed in the post will be considered unless the person making such allegation produces a Post Office certificate of posting. Candidates who delay their application until a late date will do so at their own risk. A candidate for whom a declaration under section 96-A of the Government of India Act is necessary should take *immediate* steps to obtain the same.

NOTE 1.—Candidates must have attained the age of 21 and must not have attained the age of 25 on the 1st day of August 1930.

The question of reducing the minimum age limit to 20 years is under consideration, and, in case it is decided to reduce the age limit to that extent candidates whose age was less than 21 but not less than 20 on the 1st August 1930 will also be eligible to appear at the examination. Any decision arrived at in the matter will be duly announced.

NOTE 2.—The examination will be held concurrently with the examination for the Transportation (Traffic) and Commercial Departments of the Superior Revenue Establishment of the State Railways, and the same papers will be set in the subjects common to both the examinations. Candidates accepted for admission to the examination for the Indian Service of Engineers and the Indian Railway Service of Engineers may be accepted as candidates for the other examination if they are eligible under the regulations and if they pay the fees prescribed for both examinations.

20. Except as the Local Government may otherwise by notification in the Calcutta Gazette direct, the Bengal Municipal Act, 1884, and all other enactments and all rules, bye-laws, regulations and orders made thereunder which were in force in the Garden Reach Municipality at the date of its amalgamation with the Corporation of Calcutta, shall be in force in the said reconstituted Municipality. Ben. Act III of 1884.

Power of Commissioners of the reconstituted Municipality.

21. Subject to the provisions of the Bengal Municipal Act, 1884, it shall be competent for the Commissioners of the said reconstituted Municipality to alter, modify, revise, cancel or give effect to, any act done or resolution passed by the Corporation of Calcutta, in respect of, or in any way concerning, the Garden Reach area, whilst that area was under the administration of the Corporation. Ben. Act III of 1884.

STATEMENT OF OBJECTS AND REASONS.

The Calcutta Municipal Act, 1923, as it was originally framed, did not include the Garden Reach area within its local extent nor did it include the said area even when the Bill emerged from the Select Committee. The area was amalgamated with Calcutta in the teeth of vehement opposition and against the deliberate and considered opinions and recommendations to the contrary of the Amalgamation Commission appointed by the Government, the then District Magistrate of 24-Parganas, and the Commissioners of the old Garden Reach Municipality. The motion for amalgamation was carried by a very narrow majority in the Council and even the Hon'ble Minister in charge of the Bill voted against the proposal.

The Garden Reach area comprises nearly 4½ square miles, is mostly undeveloped, and consists extensively of jungles, ditches, stagnant ponds and paddy fields without any adequate arrangement for roads, drains, lights or the supply of filtered water. Most of the inhabitants are very poor and can ill-afford to pay the heavy taxes imposed by the Calcutta Municipality, as a result of which their goods have been seized under distress-warrants and many of them have been rendered homeless. Owing to their inability to pay taxes, a large majority of the inhabitants have been disfranchised, and where there were nearly 600 Muhammadan electors before, there were less than 50 at the General Election of 1927.

The Corporation of Calcutta even before the amalgamation of Garden Reach and the added areas was not in a position to meet in a satisfactory way its statutory obligations as regards the city proper. This has been much more the case, as it was bound to be, after the amalgamation both in respect of the city proper and the said added areas ; and the position has been rendered worse by the financial difficulties of the Corporation.

Again, the people of Garden Reach will not be able, for many years to come, to enjoy the amenities that are now enjoyed by the residents of the city proper, though they are now required to pay rates and taxes for heavier than their former assessment, contrary to the statutory provision made by the Legislature for levying a lower and progressive rate under section 7 of the Calcutta Municipal (No. II) Act, 1923. This has naturally caused much dissatisfaction among the rate-payers of the area. Moreover, the administration of the Calcutta Corporation is much costlier than that of the old Municipality ; and the rate-payers have to contribute their share towards the expenses of this excessively costly administration.

It will be remembered that a Bill with the object of separating Garden Reach as well as Cossipore and Chitpore was introduced by Dr. Suhrawardy and passed by the Legislative Council on the 18th August, 1926, but the same was not assented to by the Governor of the Province. However, in his letter to Dr. Suhrawardy, His Excellency observed :—" It will be always open to the next Council, should they desire to do so, to consider a fresh Bill with the same object." Afterwards, a Bill on the above lines was introduced by Mr. Shamsuddin Ahmed, M.L.C., on the 7th August, 1929, and was subsequently referred to a Select Committee for consideration. It is understood that the Select Committee has finished its business and submitted its report ; but, in the meantime, Mr. Shamsuddin having resigned his membership of the Council, the Bill has lapsed and cannot be further proceeded with. In these circumstances, it has become necessary to introduce a fresh Bill with certain needful modifications, and it is hoped that the Council will extend to it the same sympathy and support as was given to the Bills of Dr. Suhrawardy and Mr. Shamsuddin Ahmed.

Resolution on the report on the Police Administration in the town of Calcutta and its suburbs for the year 1929.

GOVERNMENT OF BENGAL.

Police Department.

CALCUTTA, THE 6TH SEPTEMBER 1930.

RESOLUTION—No. 3888Pl.

Read—

"The report on the Police Administration in the town of Calcutta and its suburbs for the year 1929.

The office of Commissioner of Police was held from the beginning of the year up to 21st June and again from 15th December to the close of the year by Sir Charles Tegart, KT., C.I.E., M.V.O. During the period 22nd June to 14th December, Mr. L. H. Colson, I.P., acted as Commissioner of Police.

2. **Strength.**—The sanctioned strength of the Calcutta Police at the close of the year was 5,750, an increase of 113 over the sanctioned strength of the previous year. This increase was due to the entertainment of an additional force in the Detective Department of the Port Police and of a Guard for the recently completed King George's Dock. In actual strength, there has been an increase of 183 over the actual strength of 1928, while at the same time the number of constables recruited fell from 673 in 1928 to 641 in 1929. The number of resignations fell from 90 in the previous year to 46 in the year under review, and the number of vacancies in the rank of constable at the end of the year was 33 only. These figures afford an indication that the effect of the improved rates of pay in the lower ranks has been, as was anticipated, to reduce the annual wastage very considerably and to cause greater general contentment amongst these ranks. The Governor in Council notes with satisfaction that the improvement in the health of the force, to which attention was drawn last year, was maintained, the average daily percentage of sick falling from 2·04 to 1·90.

3. **Housing.**—The Commissioner of Police has again remarked on the generally unsatisfactory condition of the police buildings in the suburban areas and the necessity for their early improvement. His Excellency in Council regrets that the state of provincial finances has been such as to preclude the adoption of any loans scheme for the construction of new suburban police buildings and sees no hope that it will be found possible to undertake this work at an early date.

4. **Discipline.**—His Excellency in Council is pleased to notice the decrease in the number of prosecutions of members of the force and in the number of dismissals arising out of departmental proceedings.

5. **Crime statistics.**—There has been a further striking increase in the number of cases reported to the police, but it may be noted that this increase relates to offences other than offences under the Indian Penal Code, the number of cases under the Calcutta and Suburban Police Act having risen by nearly 20,000 and those under the Motor Vehicles Act by nearly 5,000. The very considerable drop in the number of true cases of burglary is satisfactory and there has also been a small decrease in the number of true cases of theft. His Excellency in Council endorses the remarks of the Commissioner of Police in regard to the prosecution of juveniles for petty offences and shares his hope that the establishment of the Central Children's Court, with a special whole-time Magistrate, will result in the more effective handling of such cases on more practical lines.

6. **Revolutionary Crime, seditious speeches and writings.**—Although no overt act of violence was committed during the year by terrorists in Calcutta, the necessity for constant vigilance against revolutionary activity was again clearly demonstrated by the discovery of a serious terrorist conspiracy, in which a number of young men of the *bhadrulok* class were involved. The criminal case, commonly known as the Mechuabazar Bomb Case, which was the outcome of this discovery, was tried before a special tribunal and 17 persons have subsequently been convicted.

Seditious speeches and writings were numerous and there was a large increase in the number of prosecutions.

7. **Public Order.**—Although there was no serious case of rioting of an inter-communal character during the year, it was not found possible on the occasions of the more important religious festivals to relax, in any degree, those elaborate precautionary measures which impose a very considerable extra strain on the police.

8. **Labour.**—The year was marked by considerable general labour unrest, including a general strike in the mills in and near Calcutta, but His Excellency in Council is pleased to record that no serious disturbances resulted.

9. **Traffic.**—With the continued growth of the use of motor transport for private, commercial and public service purposes, the problem both in regard to the control of traffic in the streets and in regard to the prosecution of offenders against the motor vehicles and traffic rules has become one of very great difficulty. The large increase in the number of traffic offences has caused serious congestion in the Traffic Court and no little inconvenience to the public. His Excellency in Council agrees that steps should be taken to ensure a speedier disposal of these cases and awaits the proposals of the Commissioner of Police for the establishment of a Traffic Bureau on up to date lines. His Excellency in Council desires again to draw attention to the increased necessity on the part of all users of the road for willing co-operation with the police to ensure the smooth running of traffic and to reduce the number of street accidents. A stricter observance of the rules and the courtesies of the road by all drivers of motor vehicles will contribute very considerably to a general all round improvement of traffic conditions.

10. **Miscellaneous.**—The Governor in Council regrets to notice that there has been no mitigation of the nuisance caused by beggars, hawkers and stray cattle in the streets of Calcutta and agrees with the remarks of the Commissioner of Police that, in the absence of any strong public opinion in this matter, little can be done by police action alone to effect any real improvement. The Governor in Council desires to repeat the assurance already given by him that Government would give every support to the Corporation of Calcutta in the exercise of their powers for the abatement of the present nuisance.

11. **Commendation of officers.**—The Governor in Council is pleased to read the tribute paid by the Commissioner of Police to his Deputy Commissioners and to some of his Assistant Commissioners, Inspectors and sub-inspectors. A high standard of efficiency has been attained in the Calcutta Police force, and the thanks of Government are due to Sir Charles Tegart and to Mr. Colson, who acted as Commissioner of Police in the last half of the year, for maintaining this standard.

Order.—Ordered that a copy of this resolution be forwarded to the Commissioner of Police, Calcutta, the Chief Presidency Magistrate, Calcutta, and the Commissioner of the Presidency Division, for information.

Ordered also that a copy of the resolution and a copy of the report be submitted to the Government of India in the Home Department.

Minister-in-charge: The Hon'ble Khan Bahadur Maulvi K. G. M. Faroqui.

In this Government resolution No. 30T. THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. FINAL FORECAST OF THE JUTE CROP, 1930.

Consolidated statement for Bengal, Bihar and Orissa and Assam.

Area.—The revised estimated area for the three provinces is 3,485,600 acres, an increase of 70,635 acres as compared with the revised final forecast for 1929. The decrease, as compared with the acreage in the Preliminary Forecast for 1930, is due to reduction, after revision, in the Assam estimate.

Yield.—It is estimated that this crop will yield 11,231,000 bales of jute, exceeding last year's total (revised) by 845,800 bales.

The consolidated returns are as follows:—

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Jute Crop of Bengal, 1930.

[NOTE.—On an average of the five years ending 1928-29, the area under jute in Bengal, to which this forecast relates, represents some 85·8 per cent. of the total area under jute in British India.]

Season.—In Murshidabad, Nadia, Rajshahi and Malda districts there was marked absence of rainfall in May and early June. Sowings were, therefore, late in this tract. In June and July rainfall in the Presidency and Burdwan Divisions, also in East Bengal, tended towards excess. Consequently, in the first-mentioned tract, the development of the crop is below normal. Elsewhere, as indicated in the preliminary forecast, conditions have been favourable for growth.

After the first early rise, the rivers fell away again, and until about the end of August, levels were well below normal throughout the province.

Condition of the crop.—Excepting in the districts already mentioned, the crop is well grown, and in places very good. In East Bengal the fall of the rivers after the first rise may result in increased "root" and therefore poor quality.

Area of the crop.—The area under jute is 3,062,300 acres compared with 3,020,365 acres in 1929-30.

Outturn.—As in previous years, the percentage figures are calculated on the basis of divisional normals which remain as follows:—

	Bales per acre.
Dacca and Chittagong Divisions ...	3·7
Rajshahi Division ...	3·5
Presidency and Burdwan Divisions ...	3·2

The total outturn of the crop is estimated at 9,966,000 bales as compared with 9,264,200 bales (revised) last year.

Revision of area and yield.—As indicated in the preliminary forecast, it was considered advisable to increase the area published in the final forecast for 1929-30 by roughly 74,000 acres. The yield for the period was revised in the same proportion.

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

Final Forecast of the Jute Crop of Bihar and Orissa, 1930.

[NOTE.—On an average of the five years ending 1928-29, the area under jute, to which the Bihar and Orissa forecast relates, represents about 7·9 per cent. of the total area under jute in British India.]

Acreage.—The final district returns of the eight jute-growing districts of the province show an area under jute of 179,000 acres. But these estimates have proved to be very low, and I have no reason to alter the estimate made in the preliminary forecast, viz., 238,000 acres. Last year's estimate of the area under the crop was also 238,000 acres.

Weather conditions.—In March light showers fell in the jute districts. The fall was above the normal in Champaran, Muzaffarpur, Darbhanga, Bhagalpur and Purnea, and below the normal in the remaining three jute districts. In April, May and June light to moderate rain fell in all the jute districts. The fall was below the normal in all the jute districts. In July rain fell in all the districts. The fall was above the normal in the Santal Parganas, Cuttack and Balasore and below the normal in the remaining five jute districts, i.e., Champaran, Muzaffarpur, Darbhanga, Bhagalpur and Purnea. In August rain fell in all the jute districts; the fall was light to moderate everywhere. The weather conditions are reported to have not been favourable in the most important jute district of Purnea and also in the Santal Parganas and fair in the remaining jute districts.

Outturn.—In the important jute districts of Purnea and Cuttack, the outturn of the crop has been estimated at 50 and 91 per cent. of the normal, respectively. Champaran reports a normal crop, i.e., 100 per cent. Muzaffarpur, Darbhanga, Bhagalpur, the Santal Parganas and Balasore report 75, 75, 81, 60 and 80 per cent., respectively.

On the basis of the area and percentage outturn reported by the District Officers the average condition of this year's crop for the province comes to 58 per cent. against 73 per cent., last year. But in my opinion, this is an underestimate and the condition factor will not be less than 78·1 per cent. of the normal. Recent enquiries about the normal outturn per acre show that the normal outturn per acre is 3½ bales, and on this basis the gross outturn on 238,000 acres estimated to be under jute in this province comes to 620,000 bales. The import of jute from Nepal estimated at 50,000 bales brings the total of the province to 670,000 bales.

My finally revised estimate of the crop for last year for the province including Nepal is 769,400 bales.

Director of Agriculture, Bihar and Orissa.

The sowing was late at places for want of timely rainfall while at other places it was normal where the jute was sown in low lands. The decrease in area is due to late and scanty rainfall and also to the less price the jute of last year fetched. Harvesting, steeping and washing of jute are in progress. The outturn is expected to be less than last year due to scanty rainfall which retarded the growth and those harvested cannot be steeped for insufficiency of water at places.

DEPARTMENT OF AGRICULTURE, ASSAM.

Final Forecast of Jute Crop of Assam, 1930.

[NOTE.—On the average of the five years ending 1928-29, the area under jute in Assam represents 5 1 per cent. of the total area under jute in British India.]

Season.—The season has been generally favourable for the cultivation and growth of the crop except in Sylhet, although in some districts rainfall in June and August was abnormal. Slight damage was done to the crop by drought, hailstorms and insects in places. Earthquake also caused considerable damage in the Goalpara district.

2. **Area.**—As estimated by the Deputy Commissioners, the area under jute is 185,300 acres against the last year's actual of 156,600 acres and this year's preliminary forecast area of 206,400 acres. Area estimated in the preliminary forecast has been revised in six districts.

3. **Outturn.**—The outturn has been estimated to be 92 per cent. of the normal per acre, against 64 per cent. of last year. Taking 3·5 bales of 400 lbs. each of jute fibre as the normal yield per acre, the total produce of the crop in this province this year comes to 595,000 bales against 351,600 bales (revised) of last year, or an increase of 69 per cent.

	Acres.	Acres.	Acres.			Bales.	Bales.		
Cachar ..	300	200	300	40	65	300	700	Middle of August. Normal.	The weather has been favourable for the crop. Occasional and timely rainfall helped the growth of the plant but for want of timely rainfall in the latter part of the season the outturn falls below normal.
Sylhet ..	20,000	5,700	19,700	40	51	8,000	37,400	End of July. Normal.	The increase in area is due to favourable weather at sowing time. Owing to stunted growth caused by drought at times and heavy continuous rains in the middle of the season the outturn falls far below normal. Early flood also damaged the crop.
Goalpara ..	60,000	58,400	63,200	60	100	122,600	221,700	Middle of July. Normal.	The increase in area is due partly to favourable weather condition and partly to extension of cultivation. A little damage was done to the crop by earthquake also in some places, which has led to a decrease in the area from the preliminary forecast.
Kamrup ..	15,000	19,800	20,200	70	90	48,500	63,900	Middle of August. Normal.	The increase in area is attributed to favourable weather and general extension of cultivation of the crop.
Darrang ..	12,600	17,300	18,600	70	95	42,400	61,900	July. Early ..	The increase in area is due partly to favourable weather and partly to extension of cultivation.
Nowgong ..	40,000	49,000	56,600	65	95	111,500	188,200	First week of July. Early.	The increase in area is due chiefly to favourable weather at sowing time and partly to gradual extension of cultivation. Weather was favourable for the healthy growth of the crop. Some damage was done by insects and hailstorm and so the outturn falls a little below normal.
Sibsagar ..	300	400	400	90	100	1,300	1,400	Middle of August Normal.	The weather has been generally favourable throughout the season except that in June and August the weather became rainy. The outturn is expected to be normal owing to the favourable weather conditions.
Lakhimpur ..	200	1,100	1,100	80	88	3,100	3,400	September. Normal.	The weather has been generally favourable for the crop although heavy rains in the middle of April interfered with the sowing operations. However, the outturn is expected to be below normal as the crop could not thrive well owing to scanty rainfall at the time of growth.
Garo Hills (Plains).	3,300	4,700	5,200	85	90	13,900	16,400	Middle of July. Normal.	Favourable weather accounts for the increase in area. The weather has been generally favourable for the growth of the crop and a fair outturn is expected.

Resolution on the Report on the Police Administration in the Bengal Presidency for the year 1929.

GOVERNMENT OF BENGAL.

Police Department.

CALCUTTA, THE 12TH SEPTEMBER 1930.

RESOLUTION.—No. 3970 Pl.

Read—

The Report on the Police Administration in the Bengal Presidency for the year 1929.

Mr. A. E. O'Sullivan held the post of Inspector-General of Police up to 5th October. Mr. E. B. Jones was in charge of the current duties of the office from 6th to 18th October. Mr. F. J. Lowman officiated as Inspector-General of Police from 19th October to the close of the year.

2. **Eastern Frontier Rifles.**—The battalion again rendered excellent service as a reserve force for use on occasions of grave emergency, and its good record for discipline of a high standard was, with the exception of the one incident referred to by Inspector-General in the report, well maintained. All ranks acquitted themselves well in very trying circumstances. Great credit is due to Lieutenant-Colonel Macpherson and the officers under him for the highly efficient state of the battalion.

3. **Recruitment and health of the Civil Police.**—It is satisfactory that the number of constables recruited during the year was 1,612 against 2,033 in 1928, while the vacancies at the close of the year were only 206 against 377 at the end of 1928. The total number of casualties fell from 1,994 in 1928 to 1,493, the lowest figure on record, and there was a marked drop in the number of resignations from 650 in 1928 to 304. There were also 700 constables with three years' service and over more than in the previous year. These figures indicate, as the Inspector-General has observed, that the recent increase of pay of the lower ranks has had a marked effect in reducing wastage and in conducing to greater contentment with the general conditions of service.

The Governor in Council is pleased to note that there was an improvement in the general health of the force as indicated by the fall in the number of cases admitted to hospital from 12,753 to 11,564. His Excellency in Council is aware of the great need for extended and improved hospital accommodation, but financial conditions have made it impossible to carry out more extensive schemes for hospital construction and improvement than have been undertaken.

4. **Discipline.**—There was a decrease in the number of officers and men judicially punished from 143 in 1928 to 122, and also a slight decrease in the number of complaints lodged against the police from 383 in 1928 to 364. Out of the 364 complaints lodged, 311 were disposed of during the year with the following results:—

Ended in conviction 34.
Ended in acquittal or discharge—106.
Dismissed—171.

These figures, together with the fact that in no single instance were any severe strictures passed by the Hon'ble High Court or any Court of Sessions on the conduct of the police, indicate that on the whole the discipline and conduct of the force was very satisfactory.

It is a matter for regret that there was no improvement in regard to the prosecution of persons whose complaints were found to be maliciously false, and it is hoped that, despite the legal difficulties to which the Inspector-General has drawn attention in paragraph 30 of his report, the instructions proposed to be issued to Superintendents in this important matter will result in a real improvement.

5. **Buildings.**—The Governor in Council fully endorses the remark of the Inspector-General that the unsatisfactory condition of a large number of police buildings in the mufassal has an important bearing on the health and efficiency of the police, and no effort will be spared to make such improvements as financial conditions permit.

6. **Crime Statistics.**—The number of cognisable cases reported decreased slightly from 92,025 in 1928 to 91,495 and the number of true cases of serious crime increased slightly from 43,996 to 44,390. The number of thefts again fell from 15,699 in 1928 to 15,439, the lowest

figure recorded, and dacoities decreased considerably from 802 to 693. The number of burglaries, however, increased from 24,584 to 25,568.

The Governor in Council has read with interest the remarks of the Inspector-General regarding the reasons for the striking increase in the number of dacoities and the decrease in the number of thefts and burglaries in recent years as compared with 1912.

In the present financial condition of the Presidency there is little chance that the remedies suggested can be adopted, except perhaps in the matter of the restriction of arms licenses in the case of undesirable persons, in which matter the proposals of the Inspector-General are awaited.

It is gratifying that the results of investigations and trials in police cases continue to compare very favourably with those obtained in other provinces. The Governor in Council agrees with the Inspector-General that the statistics generally afford justification for the view that the efforts of the police in the prevention and detection of crime have met with a very fair measure of success.

His Excellency in Council has noted the remarks of the Inspector-General in regard to the delay in certain districts in taking up for trial cases committed to the Court of Sessions and the length of time involved in the trial of bad livelihood cases. These matters will receive his early consideration.

The continued deterioration in the speedy disposal of police cases by Magistrates and the question of the granting of bail in non-bailable cases to known criminals will also receive attention.

The Inspector-General has again drawn attention to the frequent misuse of section 526, Criminal Procedure Code as a device for the obstruction of trials. The misuse will continue until the section is amended and the only remedy is by legislation.

7. **Working of the Rural Police.**—While there has been no marked improvement in the work of the rural police generally, the Governor in Council is pleased to note that there have been several instances of good work on the part of individual members and several cases in which the police have received substantial assistance from presidents and members of union boards and from village defence parties.

8. **Commendation of Officers.**—The Governor in Council is pleased to read the names of officers commended for specially good work and takes this opportunity of recording his appreciation of the loyal and efficient service rendered throughout the year by all ranks of the Bengal Police.

9. The report for the year 1929 was presented by Mr. F. J. Lowman, Inspector-General of Police. The news of his assassination at Dacca at the end of August 1930 was received with indignation and sorrow throughout Bengal, and it is with the deepest regret that His Excellency in Council, in recording his high appreciation of Mr. Lowman's work in the past year, must also mourn his loss.

ORDER.—Ordered that copies of the resolution be forwarded to the Inspector-General of Police, Bengal, the Commissioner of Police, Calcutta, and all Commissioners of Divisions, for information.

Ordered also that the resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

CALCUTTA, *the 12th September 1930.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 12th September 1930.

Monthly Weather and Crop Report of Bengal for August 1930.

I. **Character of the season.**—During the month under review, the rainfall was above the normal in twelve districts, while elsewhere it was below the average. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Harvesting of autumn paddy and cutting, steeping and washing of jute were proceeding but lack of sufficient water for steeping and for the transplantation of winter paddy seedlings was felt, especially in places of North Bengal, during the first part of the month. Rainfall during the latter part of the month was sufficient to facilitate the operations and satisfactory progress was made.

III. **State of standing crops.**—The state of standing crops was, on the whole, satisfactory.

IV. **Prospects and probable outturn.**—The outturn of sugarcane is expected to be fairly satisfactory. The prospects of standing crops were generally fair.

V. **Damage to standing crops.**—Except for slight damage caused by insects in some districts, no injury was reported from any part of the province.

VI. **Condition of agricultural stock.**—The condition of live-stock was generally fair. Sporadic cases of cattle-disease were, however, reported from six districts.

VII. **Failure of pasturage and fodder.**—No insufficiency of fodder was reported from any part of the province.

VIII. **Prices of food-grains.**—During the second fortnight of the month, the retail prices of common rice of the cheapest quality rose in three districts, fell in seven and remained stationary in the rest of the Presidency. The prices ranged from 6 seers per rupee in Noakhali to 9½ seers per rupee in Burdwan.

IX. **Condition of agricultural population.**—The condition of agricultural population is less satisfactory owing to the fall in price of jute and other staples.

Class I.—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square-built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B. C.) of 1864 and of these rules, be determined by the following measurements:—

CLASS I.

A. The product of one quarter the length of the vessel from stem to stern measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.**—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance of engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rates of toll shall be as follows:—

(1) On all vessels empty or laden, per hundred maunds—Twelve annas.

(2) On all vessels empty or laden, for 12½ maunds or less—One anna six pies.

(3) On rafts of bamboos, grass, timber, etc., not exceeding 50 feet in length and 5 feet in breadth—Six annas each raft.

Tolls will be levied at Dephulia, near Baniakati bridge.

13. For boats frequently using the canal, such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at 10 times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the British Army, post mail runners, officers of the Irrigation Department on duty, officers and servants of the toll office for the canal referred to in these rules while on duty, or the vessels of such other persons as may be exempted by a resolution of the District Board of Bakarganj, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevant points, not provided for in these rules, shall be decided by the District Board of Bakarganj at a meeting, and shall be subject to the approval of the local Government.

Geography.

Books recommended to be used by students in studying the subject in accordance with the syllabus:—

The world with fuller treatment of India (Longmans' Geographical Series, for India, Book II).
A. Bose. Outlines of Geography.
Gurubandhu Bhattacharyya. Bhugol Prabesika (in Bengali).
Longmans' Geographical Exercise Book for India, Part II, by L. Dudley Stamp.

The following books are recommended for the use of teachers:—

Blandford. The Rudiments of Physical Geography for the use of Indian Schools.
Frew. A. Regional Geography of the Indian Empire (Blackie & Son).
Wallis. The Teaching of Geography (Cambridge University Press).
O'Malley. Bengal, Behar and Orissa, Sikkim (Macmillan & Co.).
L. Dudley Stamp. The World. A General Geography for Indian Schools (Longmans, Green & Co.).
L. Dudley Stamp. How to teach Geography in India (Longmans, Green & Co.).

The following book is recommended for the use of teachers in connection with the teaching of "Sand Modelling" in the lower classes of schools:—

A. F. Frye. The Child and Nature.

N. B.—Every school that intends to undertake instruction in Geography for the Matriculation Examination is required to possess the apparatus mentioned in the following list:—

I. (The total cost need not exceed Rs. 65.)

(1) A measuring tape and metre scale and foot-rule.
(2) A magnetic compass.
(3) Squared paper and tracing paper.
(4) Clay, dry sand, paper pulp for modelling.
(5) A globe not less than 14 inches in diameter, with writing surface, and with line of latitude and longitude and outlines only of the land masses marked upon it.
(6) A map of the school locality on a scale of 4″ or 6″=1 mile.
(7) A map of the district in which the school is situated 1″=1 mile.
(8) A coloured map of the province.
(9) A coloured political map of India.

(10) A physical map of India.
(11) A relief map of India.
(12) A map of the world on Mollweide's equal area projection and a map of Asia.

It is essential that the students should be provided with atlases, or with the necessary hand map, and with a drawing instrument box. Maps for school work should not contain too much detail or be crowded with names.

II. The following additional equipment is recommended when it can be provided, but the lack of it is not to be considered as a bar to the recognition of the school in Geography:-

(1) A thermometer.
(2) A mercury barometer.
(3) A rain-gauge.
(4) A small collection of typical rocks; in patricular, those of the province and India.
(5) A small museum of typical products.
(6) A good standard atlas.
(7) Geographical pictures.
(8) Magic lantern and slides.

(1) The attention of teachers is invited to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp, prepared by Babu Kailaschandra Dutt, Head Pandit, Habigunj Government Girls' School, Sylhet and sold for Rs. 7 and Rs. 5, respectively.

(2) Globes of all kinds are made by George Phillip and Son, London, W., and A. K. Johnston, London, and Messrs. Ruddiman, London. Small hand globes of German make can be obtained through the Indian School Supply Depot for about a rupee each.

(3) The "Comparative" series of large wall maps of the continents published by George Phillip and Son is good and up to date; so also are the Geographical wall maps published by Edward Sandford. Messrs. Ruddiman Johnston publish a series of smaller wall maps which include maps of India illustrating various distributions.

Messrs. Nelson's wall atlases are good. Mr. S. B. Chatterjee publishes District Maps, also ordinary and relief maps of the province.

Babu L. M. Basu, the Drawing Master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablache French wall maps on strong card-board, named on one side, and the same map without names on the reverse, published by Armand Collin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

(4) The hand maps coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden, Surrey, at one penny each, are the best of their kind.

The uncoloured half-penny maps showing river systems and a few towns published by the same Company, are excellent for class use.

The autograph hand maps, with hill shading in brown, published by Messrs. Edward Sandford, London, at one penny each, are very good, and are larger than the Diagram Company's hand maps. The 15" map of the world on Mollweide's equal area projection is specially to be commended.

(5) Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds, Horus Hacette of Paris, Messrs. Ifolzel of Vienna, and Messrs. Longmans, Green and Company. They cost, delivered in India, from two or three rupees each.

Map, lantern slides and view slides specially prepared for Geography teaching are sold by the Diagram Company for two or three shillings each. Mr. Sain of Darjeeling also sells good picture slides of the Himalayas at Rs. 15 per dozen.

Elementary Mechanics.

The following books are recommended:—

Backer's New Physical Balance.
Set of gramme weights (200 grams to 1 mgr.).
2 Composition Ivory Balls.

NOTE.—The above list is not exhaustive, and much of it might be replaced by similar forms that could probably be made far more cheaply by any clever mistry under proper supervision. In most cases, however, it will probably be found advantageous to buy such a set as indicated in the list, specially for demonstration purposes, and subsequently to develop simplified duplicates illustrating the same principles, which the boys should be given opportunity actually to experiment with, on their own individual account or working in pairs.
